

Go Fish

card game

game instructions

Contains 36 cards

Shuffle the deck. Deal each player five cards. Place the rest of the deck face down in the center of the table as a draw pile. On each turn, a player asks any other player if they have a type of fish card in their hand. The asking player must have at least one of these cards in their own hand. If the player asked has the card asked for they must give it up. The asking players' turn continues until they do not succeed in getting cards. When a player does not have a card asked for, the player tells the other to "go fish". The asking player then draws from the draw pile and the play then continues to the next player. When a player collects all four of a fish type they lay the set in front of them. The player with the most sets at the end of the game wins!
